

### **Dr. Wim Sweldens – Co-Founder and Chief Architect – Kiswe**

Wim is the Co-Founder and Chief Architect of Kiswe Mobile, a pioneer and leader in interactive and social live streaming. He is responsible for data analytics, intellectual property, corporate strategy, and selected customer and investor projects. Previously Wim was the President of the Alcatel-Lucent Mobile Division where he spearheaded the introduction of LTE and small cells. Global Telecoms Business selected Wim to its "Power 100 of 2009". Prior, as the head of the Alcatel-Lucent Ventures, he led the successful commercialization of numerous Bell Labs innovations. As a scientist Wim holds 18 patents and contributed to the JPEG2000 standard. Wim has a Ph.D in Applied Mathematics, is a fellow of the IEEE, and a member of the Belgian Royal Academy of Sciences.
